**National Garden Clubs, Inc.
Environmental School**

Goals and Objectives:

- A. Develop a citizenry that is aware of, and concerned about, the total Environment and its associated problems, and which has the knowledge, attitude, motivation, skill and commitment to work individually and collectively toward solutions of current problems and the prevention of new ones.
- B. Promote NGC, Inc. Env. School
- C. Foster value systems that preserve the biotic community
- D. Increase awareness of the interdependence of life on earth
- E. Prevent pollution to protect public health and heal the planet
- F. Help citizens become involved with their communities and natural world
- G. Network and reach out to all segments of the community to achieve goals
- H. Encourage conservation education
- I. Promote inclusion of environmental education in classrooms and youth organizations throughout the country
- J. Establish Environmental Councils to provide opportunity for personal growth and community service for NGC, Inc. Environmental Consultants and Provisionals.

Council, Inc.**

**A member of
District IX
Florida Federation of Garden Clubs, Inc.
Deep South Region**

Environmental School Series

The Environmental School provides continuing education about the land, water, air, and earth on which we live. Course content is established by National Garden Clubs, Inc. (NGC). Four sequenced courses (1 through 4) comprise a series.

Each course consists of ten hours of instruction, which will include field trips and tours to related locations. The Consultant Certification Card is issued to NGC members after they have completed Environmental School Courses 1 – 4 with a passing grade of 70 or more on every exam. These four courses must be completed within 7 years. Exams are optional, however, if you wish to be an accredited Environmental Consultant, you must take the exams. After passing two courses, a student becomes a Provisional Consultant and may join an Environmental Consultants Council. To remain in Good Standing, every five years Consultants must continue their education by attending an ES Refresher or Course, no exam required. After a Consultant's fourth refresher, the Consultant becomes a Master Consultant. Consultants or Master Consultants may earn refresher credit only once within a calendar year.

Course 1: The Living Earth
Offered Thursday & Friday,
February 24 & 25, 2022
8:30 am – 4 pm Cost: \$70 pp
